

ENGINEERED RADIATA PINE **STAIR PARTS** WHITE PRIMED

Engineered white primed Radiata Pine stair parts blend cutting edge design with practicality. Crafted from durable Radiata Pine, known for its uniformity and strength, these parts are engineered to resist warping and splitting.

Each piece is individually packaged, ensuring they arrive in perfect condition and are easy to store and handle.

The white priming prepares them for any paint finish, allowing seamless integration into diverse interior styles.

This thoughtful engineering and packaging underscore a commitment to quality, convenience, and environmental sustainability, making these stair parts a smart choice for any staircase design.
